

The INSTRU 01200 is an ideal instrument for measuring temperature of air conditioning systems, food processing, agriculture, photography, food storage, pharmaceutical, laboratories and petrocarbons due to the quick action of its immersion/penetration thermometer which can be used in air, soft or powdery substances or liquids.

The waterproof design protects the INSTRU 01200 against accidental immersions.

CHARACTERISTICS

- Wide measurement range
- Stainless steel probe
- Hold function
- Security probe cover
- Automatic power off (10 minutes)
- On / Off button
- Easy battery replacement

SPECIFICATIONS

Temperature	
Range	-50°C to +200°C
Accuracy	+/- 1 °C
Resolution	0.1 ° between -19.9° to +199.9°, otherwise 1°
Operation	-10 °C to +50 °C (ambient temperature)

Sampling Rate	1 second
Power supply	1 x 1.5 volt type SG5 or equivalent
Display	9 mm x 18 mm LCD
Dimensions	Ø35 mm x 150 mm
Probe Dimensions	Ø3.5 mm x 125 mm
